

Rooting-Branching

A Public Art Project by FSU Faculty and Students

To attend, meet in front of Strozier Library by the large live oak tree (aka The Love Oak) at 6:30pm on Tuesday, April 18th.

Rooting - Branching, is a site-specific augmented reality public art project that highlights sustainable infrastructure on FSU's campus. Featuring 3D animated sculptures and digitized performance sequences, which attendees will observe site-specifically by viewing the creative content at designated sites using augmented reality technology.

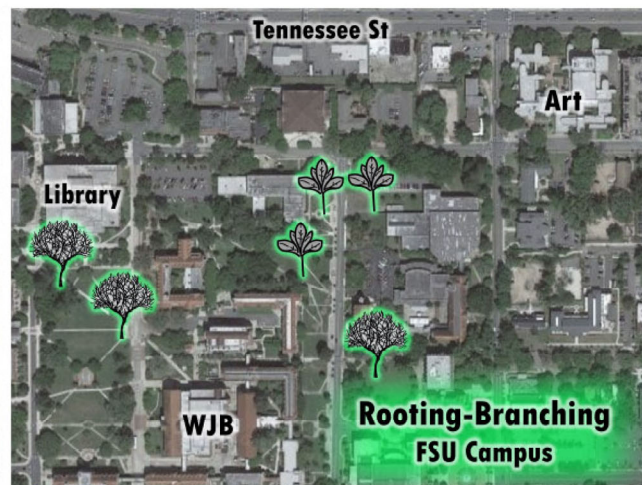

Faculty members Katie Kehoe and Keith Roberson with the Department of Art and Andy Opel, with the School of Communications conceived and designed the Rooting-Branching Project with consultation and support from David MacManus, Assistant Manager of FSU's Grounds and Landscaping and Phoenix Fermin, FSU's Greenhouse Manager. This initiative is funded by the Green Fund at FSU Sustainable Campus.
