

PHI KAPPA PHI

ARTIST AWARD

APPLICATION AND SUPPORTING MATERIAL

Applicants are strongly encouraged to submit documentation to aid the judges' evaluation of their work as an artist. Audio tapes, video tapes, transparencies, written/printed material, reviews, resumes, and/or other suitable forms of documentation are some of the traditional ways of providing support for an application. Although supporting documentation is not required to apply for the award, applicants choosing to do so have, traditionally, done well in the competition.

All materials should be clearly labeled with the name of the nominee. If the documentation also contains the work of artists other than the nominee, the part to be reviewed by the judges must be clearly identified. For example, a dancer/choreographer should indicate their contribution to each performance submitted. Applicants may pick-up their materials from Honors, Scholars, and Fellows House during finals week. Materials not picked-up by the end of the semester become the property of Phi Kappa Phi.

Complete and sign the attached application. All applicants **MUST** have a faculty nominator. Additional references and reviews are optional but are an excellent way to document artistic talent. Although GPA is not a specific criteria for this award it is used as another indication of artistic ability and often comes into play when the judges are tied. All applications, artist statements, nominator references, and supporting materials should be delivered to the following address by March 6, 2015:

Phi Kappa Phi Artist Award
Honors, Scholars, and Fellows House
